"You guys were SO DAMN GOOD at Northwest Tribfest! Been singing your praises since Saturday. Thanks for rocking us!"

- Taryn Daly, KISW (DJ)

"My company Just Add Power throws the biggest party at the Custom Electronics Show (CEDIA) every year. In the past we have brought in Fan Halen and Queen Nation just to name a few of the acts. Dr Crue gave us a full tilt 90-minute non-stop heart pounding and fist pumping rock show! When a corporate event ends with hundreds of people with the Horns in the air and singing along to every song, you know the time machine worked flawlessly. The band was beyond prepared, professional, interactive, and so much fun!"

- Taft V., Just Add Power (Owner)

"Thank you, guys. One of the busiest nights in a long time! Above all else, you guys sounded more like Motley Crue than Motley Crue. Great night!"

- Peter K., Louie G's (Owner)

"Dr. Crüe is by far the absolute BEST Crüe tribute I have witnessed. As a lifetime Crüe fan, I know every beat & chord and these boyz nail it! Their overall look is right on point as well. I'm so excited they are keeping Crüe alive & excited to attend as many of their shows as possible!"

Josh M: I've seen Motley Crüe about a half a dozen times in my life. I thought they retired last year. I had to remind myself a few times of that last night. Dr Crüe IS Motley Crüe!"

- Josh M., Fan

"Wow, is what I've got to say about this band! I could tell they worked very hard to have everything from the outfits to the mannerisms to the performance down, along with spot on vocals and instrumentals. I know I will go see them again as they made me a fan!"
